

Trapets and DORA

Information summary

Trapets and DORA

In this document, Trapets has summarized key information requested by our customers in their work around DORA.

Trapets aims to ensure compliance with relevant customer and regulatory requirements arising from DORA, to ensure that Trapets and our offerings remain both trustworthy and competitive.

1. ISO27001 certification

Information security and cyber security are fundamental priorities at Trapets, and we continually develop and improve our information security management system (ISMS). Trapets has been certified under ISO 27001 since 2018.

Trapets leverages our ISO27001 certification as a foundation for meeting DORA requirements. During 2024, Trapets has transitioned to ISO27001:2023 and has successfully completed re-certification until 2027.

2. Gap analysis and implementation

DORA areas outside of ISO27001 are being worked on and implemented. This includes, but is not limited to:

- facilitating customer and prospect due diligence and audit of Trapets,
- updates to Trapets' risk, incident management and reporting processes,
- further improvements of operational resilience,
- close collaboration with sub-contractors, and updates to supplier evaluation and audit process

3. General service provider information

To facilitate your collection of data for the required register of information, we have gathered some general information on Trapets.

Ultimate parent undertaking – Corp. Reg. No.	20231035462 Luxembourg Trade and Companies Register (RCS)	34389232

5. DORA Addendum to customer contracts

Trapets has drafted a DORA Addendum template to complement our customer contracts to comply with the requirements of Article 30 of DORA. We are happy to provide and sign this DORA Addendum upon request.

In the Addendum, the customer can specify whether Trapets' services are deemed by the customer to support a critical or important function, or not.

6. More information

For more information around Trapets' information security and cyber security practises and other key due diligence information, including our ISO27001 certificate, please see www.trapets.com/trust-centre. Here you can also find the Trapets Vendor Audit Report 2023, that includes information aiming to facilitate cost-efficient and easy reviews, audits and vendor due diligence. An updated version of the Trapets Vendor Audit Report, for 2024, will be made available in January 2025.

Trapets will also continue to provide information.

7. Questions?

If you have additional questions, please contact your regular contact at Trapets.

Trapets is a software company that provides products and solutions for financial crime prevention, including anti-money laundering (AML), know your customer (KYC), and market surveillance.

Founded in 2000, Trapets has helped organisations meet regulatory needs for business success and fight financial crime for decades. We are trusted by over 500 companies ranging from small financial institutions to regulatory entities and have earned recognition as one of the top 100 RegTech companies globally.

Trapets has over 70 employees based in Stockholm, Hanoi, and London.
